**Attachments:** Pesticide Rationale 8.14.14\_ac.docx

Hi Anita, Dominic and Mark -- just wanted to let you know that EPA Region 10 Office of Water staff, Jennifer Wu, is coordinating a federal action re approval/disapproval of Oregon's non-point source protection program. The question of the day: whether non-fish bearing streams in Oregon need buffers during herbicide applications.

Based on Jenny Wu's knowledge of pesticides, she wrote a draft document (attached). I know that the draft document is long and hard to read because of track changes. But if you could do a quick glance, that would be appreciated. And if you have any specific request/suggestions for Jenny Wu to include, during her briefing to EPA Region 10 Office of Water management this Wednesday, please let me know.

Thank you so much!

Linda

p.s. The question I have now is: Does EPA or NMFS have data to indicate that Oregon's coastal water is impaired due to pesticide applications <-- based on OPP's recent meetings with NMFS, if you know the answer to this question, that will be helpful. Thank you!

Hi Jenny--

Wow! Working late based on the time your email was sent! I think this is coming along. My comments are attached. Since it was getting a little messy, I highlighted the new comments I added in yellow so you can find those easily.

I actually think we have 3 options for mngt team to consider:

# Ex. 5 - Deliberative

Let me know if you have any questions.

Allison

Thanks all for great suggestions, edits and reorganization. Here's the second version of the

rationale. Again, this is the key document, so I appreciate all the careful review.

I talked with most of you individually, so things have been evolving with each conversation. Please look at the conditions for approval as I added a couple since I last talked with people in the afternoon. Here's an update on where we're at:

We're down essentially to two options to present to management:

# Ex. 5 - Deliberative

A reminder that the briefing for management on pesticides is Wednesday, August 20 from 12-2pm PST/1-3pm Mountain. I'm updating the issues paper for management based on this rationale document. Please let me know if you're interested in coming and I'll forward the meeting and agenda to you. You only need to come for the pesticides piece.

- Jenny
